CERTIFIED MAIL
RETURN RECEIPT REQUESTED

4WD-RPB

Mr. Don Williams, Plant Environmental Coordinator
Grenada Manufacturing, LLC
635 Highway 332
Grenada, Mississippi 38901

Subject: Notice of Technical Inadequacy (NOTI)
Grenada Manufacturing LLC
Grenada, Mississippi
EPA ID No. MSD 007 037 278

Dear Mr. Williams;

The United States Environmental Protection Agency (EPA) and the Mississippi Department of Environmental Quality (MDEQ) have completed their review of the Closure Work Plan for SWMU 14, Chromium Destruct Pit, dated March 15, 2001. The Closure Work Plan is part of interim measures being implemented by the facility. EPA is transmitting its comments on the document, both general and specific. These comments must be addressed in a revision of Closure Work Plan. The revision of the Closure Work Plan will be due 60 days after receipt of this NOTI by the facility.

EPA's letter dated December 13, 2000, stated that the Closure Plan for the Chromium Destruct Pit should follow 40 CFR Part 264 Subpart G requirements [Surface Impoundments]. The Closure plan that the facility sent followed Subpart J requirements [Tanks]. The Destruct Pit does not meet the definition of a Tank at 40 CFR Part 260.10, therefore, the Closure Plan as submitted is unacceptable.

Please find attached, EPA's comments on the Closure Work Plan for SWMU 14, Chromium Destruct Pit. If you have any questions, please call Donald Webster of my staff at (404) 562-8469.

Sincerely,

Narindar M. Kumar, Chief
RCRA Programs Branch
Waste Division

Dear Mr. Williams;

Attached are EPA's and MDEQ's comments on the Revised Closure Plan for the Chromium Destruct Pit. In the interests of time, because closure of this unit is an Interim Measure under your permit and needs to be closed as expeditiously as possible; I am giving you these comments by E-mail. Once you respond to the comments by issuing an acceptable Final Closure Plan, EPA will issue its official approval of the plan by letter and you may proceed with the Interim Measures. EPA would like to have your response within twenty-one (21) days.

Please forward this E-mail to the appropriate persons at Arvin Meritor, Textron Automotive, Textron Inc. and GESI. I do not have their E-mail addresses.

If you have any questions, please contact me at 404 562-8469.

Sincerely,

Don Webster
Facility Manager USEPA
